

STUDENT ERA

Online Virtual Internship

Important points to be noted :

1. There are **five tasks** in total, and you must complete **any three of them**. These three tasks are necessary for meeting the requirements of your program.

Note: Completing less than three tasks may result in a penalty or disqualification from the program.

2. Make sure to **submit your projects before the due date**.
3. Once the deadline has passed, **late submissions will no longer be accepted**. Any project submitted after the deadline may not be considered for evaluation.
4. If you miss the deadline, your student ID may be **terminated** from the system.
5. Please follow all the instructions carefully for each task. If you do not follow the task guidelines, your submission may be marked as incomplete or incorrect.

Web Development project tasks

Task : 01

Design and build a personal portfolio website that showcases your skills, projects, and accomplishments.

Task : 02

Design a responsive landing page similar to Netflix's homepage.

Task : 03

Create a simple to-do list application that allows users to add, delete, and mark tasks as completed.

Task : 04

Build a weather application that provides weather data based on user input (city name).

Task : 05

Create an interactive quiz application where users can answer multiple-choice questions and get a score at the end.
