

STUDENT ERA

Online Virtual Internship

Important points to be noted :

1. There are **five tasks** in total, and you must complete **any three of them**. These three tasks are necessary for meeting the requirements of your program.

Note: Completing less than three tasks may result in a penalty or disqualification from the program.

2. Make sure to **submit your projects before the due date**.
3. Once the deadline has passed, **late submissions will no longer be accepted**. Any project submitted after the deadline may not be considered for evaluation.
4. If you miss the deadline, your student ID may be **terminated** from the system.
5. Please follow all the instructions carefully for each task. If you do not follow the task guidelines, your submission may be marked as incomplete or incorrect.

Data Analysts Project

Task : 01

Use a dataset of sales transactions to derive insights.

Use Excel, Google Sheets, or Python (Pandas) for analysis.

Task : 02

Practice data cleaning with a messy dataset.

Identify and handle missing values.

Task : 03

Explore a dataset to uncover trends and patterns.

Choose a dataset (e.g., COVID-19 statistics, employee salaries, or movie ratings).

Task : 04

Create an interactive dashboard to showcase data insights.

Choose a topic (e.g., employee performance or website traffic).

Task : 05

Predict future trends based on historical data.

Use Python (Scikit-learn) or Excel for a regression analysis.
